Can't help with chuck's email, but wanted to say "Hi" anyway.

Hope all is well with you.

Hi there Derek.

Good to see you here again.

Not many around here anymore...we've all moved on to some degree , (more or less).

Cheers

yeah i hear the group has gone to hell, and even officially so ;-)

no seriously, its probably a logical thing to happen eventually, when noone uses paris anymore (does anyone still use paris here?), the group becomes a "political debate" group first and foremost, and with the current polical climate and deep differences in the US, no wonder that the climate is not too good then. i remember that was already the case when i left a few years ago, it was the reason why i left if i remember correctly.

still, its funny how i get a warm and fuzzy feeling just by looking at this good old web interface :-)  
ive moved on, but i really loved to hang out at this place. back when we were getting all worked up about our little individualist daw and the soap opera surrounding it...aah those were the days :-)

best,  
derek

hey kim, thanks! all is well. family is doing great  
(i have two daughters now) and as far as the music production  
stuff goes, on the one hand, the  
music industry has been going down in flames in germany  
like everywhere else - on the other hand, ive been lucky  
enough to have several top ten singles and LPs, so at least  
i was able to keep my income about steady while many  
studios around me had to close down.

right now im torn between hoping that it stays that way  
or looking for alternatives, i.e. id love to get into the  
music production for computer games scene, but its hard  
to get in there...anyway, i should not complain.

hope all is well with you too!

Hi Derek,

Good to hear you're doing well. Still in the bunker?

I saw some publicity photos of Nena and her band recently. I was wondering if you were with her still?

hey bill,

yes im still working with her, quite a lot actually, produced  
the last album, right now we make a whole round of rearrangements  
for the live shows etc...she plays live very often and  
has a very stable basis there - good thing to have in these  
troubled times where people dont buy records. thank god  
you cant download a livee concert ;-)
