Kerry,

On our product wiki at work, you can subscribe to the wiki via an RSS client to get the latest updates. I use sharpreader. I can't seem to be able to do that with the paris wiki. Maybe I'm just dumb. It's a great feature for a frequently updated wiki.

Chuck

Hey Chuck -

That functionality seems included in this Wiki (based on Onyx RSS). I'm afraid I don't know much about it yet (never manually set up an RSS feed), but I'm researching it right now. The issue doesn't seem uncrackable, I just have to teach myself how.

Check back here for progress report.

OK Chuck - I can now get this feed working in RSS Owl by pasting this URL manually (sorry, it could be more elegant, but at least you should only have to do it once); let me know if it works for you on sharpreader. Watch out for the linewrap, of course.

<http://www.kerrygalloway.com/WikiPARIS/wikka.php?wakka=RecentChanges/recentchanges.xml>

PS: I copied this thread into the Project group.
