Let's see... I've owned an ADAT card that sitting in my MEC for quite a few years. Of course, I got rid of my Alesis ADAT Blackface many years ago.... my question is... what are some of you others using the ADAT card? I don't see the prices dropping too much on them and I am wondering what useful purpose they have besides transferring 8 tracks to a Blackface or ADAT machine... Thanks for any feedback...

Ed- besides adat transfers I use them for to and from effects processors and other soundcards. Its the easy way to avoid additional d/a a/d conversions.

All of the above, plus my Kurzweil KSP8 is returned via an ADAT card (4 stereo returns)...
