I'm kind of thinking out loud.

What kind of native plugins would you guys like to see developed for Paris?

What do you think you guys would be willing to pay for these plugins?

If we could get the algorithms ported from the Ensoniq DP pro, what would you guys be willing to pay for that?

I'm not sure that this is possible, but, what would you guys be willing to pay for automatic plugin delay compensation?

If you could have somebody do coding work for Paris, what would you have them do? What would you be willing to pay for this software/service?

I may have somebody interested.

James
