I posted what I've gotten so far... I'll be out of town most of the weekend, so I'll put some more up Sunday night.

There are a couple of shots from the AES dinner with dudes we don't know. If you do, please fill in the blanks and I'll update later.

Paul -

To catch you up on some of the nameless folk in the AES pictures, in the shot with Gene Lennon is John Roper. In the shot with Morgan, TCB, and a little piece of me (I take several shots to complete) is Delon Dotson and Chris Ludwig. Finally, the two fellas in the shot with me are Brian Porick and Kerry Hays.

Also, I mention here that Sakis and I have the same birth date, so we call each other brother. However, while he got all the looks, I got the flair for loud shirts!

Hi Paul,

I tried emailing a pic to you (minus the "_nospam" of course) but it wouldn't
go thru.   Is there another place to send it?

The names show up on the left, under the gallery.

Mouse Guy is the classic "Rat Fink" - you need to be a '60's to '70's
gearhead to really understand.... and by gearhead, I mean motors, not
guitars and amps.

Ahhh, ok, there they are. The names were jumbled up with the "porta"
copywrite thingy. I deep sixed my status bar and low and behold, all was
revealed. Thanks gents, and thanks for puttin' on the show Paul.
