>I wasn't disappointed with the Roland's sound. It was it's functions and features that turned me away. And of course the company support. Then I turned to Paris and found lots of support, only to shortly watch all support (except the newsgroup) go away. As you probably heard from many, we were suppose to get an update to Paris 3.0, but the company bailed out on us. So, in protest, I immediatly got rid of that Pace crap (if you know what I mean... shhhhh)... lol. Do I feel guilty? No one bit!

Anyway, to tell you the truth I am not quite sure I understand what you are trying to achieve, but it sounds like you are doing you own mastering from your mixes and it sounds like you want to bring the "mastered" stereo files back into the song and find it (hear it) sonically equivelant to the original. Is that my understanding? To be honest, that is exactly why I am goin
