Are we back up and running? Everything all right over there, Kim?

Good to hear all's well; I must say, the server's running pretty fast
and smooth right now. Maybe the gear actually wanted a reset.

Yes, but no. We're all good.

Basically I stuffed up yesterday and unplugged some network patches to do
a test, and forgot to undo it. I didn't realise until Kerry kindly emailed
me and let me know.

The lines have been dropping in and out a little here too for some reason,
but I've reset the server and the router and I'm sure we'll be more on than
off for a while. :o)

Cheers,
Kim.

In point of fact, this is the fastest of all the groups I keep track of.

The Gear Page (http://www.thegearpage.net/board/index.php) and the Telecaster Forum (http://www.tdpri.com/forum/telecaster-discussion-forum/) are downright sluggish by comparison!

You go Kim!

Gantt
