I've been holding on to a spare EDS card and have a 442 interface plus a couple of the 2 channel expansions (not sure if they can be used with the 442 or if they need an MEC).

Would that work for your transfers?

If not I am based in London and have 2 MEC's so could possibly discuss hiring the rig in some way.

Anyway - message me or email justcosmic1@yahoo.co.uk if any of that sounds helpful.
