Hi all,

I can't save my EDS settings, the button is "grey".
I suspect i did something wrong. Any Idea ?

I run XP.

Regards,

damien

Hi Damien,

The interface is a bit odd. If you give the preset a name by clicking in the gray box and typing (I don't thin a cursor appears), you should be able to click on the "arrow down" button.

I hope this helps.

Mike
