Hi guys,

I still have most of my rig to sell, all blue face, all in good condition:

EDS1000

C16

MEC

ADAT x 2

8 IN x 2

I also have the P4 1.6 I've been running it on if it's of interest to anyone. I'd like to sell as a package if possible (with or without computer). Pics are available.

I'm in the UK, so shipping will need to be taken into account, but with the £ crashing against the € and \$ it's probably not a bad time for selling / buying!

PM or reply here with offers,

thanks

Kerr
