didn't get a response to original post, so here's a repost....

For some reason when I installed NoLimit, I don't have presets (I believe Chuck said there are 4 or 5 that should show up) maybe cuz I'm on a mac? I dunno.

Can someone check and report what the numbers are in the presets? Also if anyone wants to share favorite settings for Acoustic bass or vocals, I'd appreciate it. (I already looked thru archives & didn't find much)

Thanks,
Dale
