Grab the drivers from the Mike Audet link or the one above in the header - should be pretty immediate.

Once you've got that, just download the PARIS 3.0 software from this link and you're good to start the install (you've got a grace period of one week once you boot 3.0 to try it out, so make sure you ask for your authorization code right away).

You'll find useful install documents here.

Hi,

I have a TON of PARIS hardware available. Plus 3.0 software and drivers for XP.

Please let me know if you are still in need of equipment.

Thanks!

Mark
