Subject: OT Anyone tried Apogee Ensemble?

My client uses Logic and the Ensemble sounds like a good fit. Any hands on experience anyone?

Here's the overall scenario: We have an Apogee AD16X (16 channel AD converter), an RME card in the computer which accepts the Apogee's ADAT I/Os and a Motu 828 Mk 2 rack unit which runs in/out of the Mac via FW.

I want to improve the DA conversion, which is currently the DA in the Motu. I was originally looking at a UA 2092, a Benchmark DAC1 or a Prism DA2 - something along those lines for the DA converters, then I ran across the new Ensemble which is supposed to be a good fit with Logic.

Problem is I have no idea of the quality of the DA converters. Plus we don't really need the 4 mic pres (rack of Neves). Still, being able to integrate the AD 16X and Ensemble in the same routing software would be very convenient and we could maybe lose the RME and the MOTU altogether.

Any comments?
