Anyone gotten this message?This is related to my
no interface connected to master card post below.

I installed 1 EDS and got this along with not enough free
resources.The ribbon connectors are still connected to the
other cards so next I'm going to disconnect;thinking that
could be a problem.Paris di boot up,but I got this after the
intialization period.

  This is when I really love PARIS.You forget about how nice
it sounds when your in the middle of these scenerios:)

TIA,
Pete
