Subject: ADAT recording level signal Posted by MFOEDS on Tue, 29 Nov 2011 17:10:56 GMT

I have a keyboard with an ADAT out (its set to output 24bit 48khz, same setting in Paris but Paris is Master),

when I record in Paris via the ADAT card the level of the signal is low... I get way more signal if I record analog,

is this normal?

Cheers, MFO
